The procedure to do the sacristy laundry is not difficult. You may pick up the purificators after the 10:30 Mass on Sunday or during the week. If the sacristy is locked, you may get the key from the office. They need to be back by the 4:30 Mass the following Saturday. You need to spot the lipstick marks before washing them. Do not put them in the dryer as that sets the wrinkles and they are impossible to get out. Roll them in a big bath towel and iron them when they are still damp. Please wash the other towels that are in the hamper or hanging up to dry. Thank you.
